This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 4-10 (canceled)

Claim 11 (new): A drink holder for use with a fishing rod holder comprising of:

a rod portion consisting of hollow cylinder with an open end having 4 equally spaced slots that are wide enough to fit over the orientating pin of a standard rod holder, and a closed end having a round ratchet surface perpendicular to the axis of the hollow cylinder, with a hole in the center of the ratchet surface, and an overall length that is deeper than a standard rod holder, allowing the ratchet portion to be exposed when placed in a rod holder with the slotted end is placed securely in the rod holder;

a cup portion consisting of a hollow cylinder being open at one end and closed at the other end, with a round ratchet surface perpendicular to the axis created by its hollow cylinder, attached to the closed end with a hole in the center of the ratchet surface;

a wing nut and bolt;

assembled with the ratchet surfaces being secured together at any desired angle by the wing nut and bolt.

Claim 12 (new): A drink holder as described in claim 11 having a rod portion with a depression in the opposite side of the ratchet surface so that it would capture the bolt head, stopping it from turning during assembly.

Claim 13 (new): A drink holder as described in claim 11 having a cup portion with a smaller diameter shallow ring extending from the inside of the cylinders closed end, toward the open end, to assist in holding smaller diameter containers.
